## IBPS CWE (III) RRB OFFICER

 PREVIOUS PAPER BASED ON MEMORY
## HELD ON: 06-09-2014

## TEST - I : REASONING

Directions (Q. 1 - 2): Study the following information carefully and answer the given questions.

* There is a family of seven persons representing three generations.
* There are two married couples.
* Ramcharan, the lawyer, is father of Rohit and has two grandchildren.
* Monica, the doctor, is sister of the teacher.
* Sudha, the daughter-in-law of Asha, is married to the teacher.
* Shikha, the granddaughter of one of the housewives, is studying in $8^{\text {th }}$ standard.
* The peon is the grandson of Asha.

1. What is the profession of Rohit?
1) Teacher
2) Lawyer
3) Student
4) Peon
5) Can't say
2. Which of the following groups is associated with all three generations?
1) Rohit, Monica and Shikha
2) Rohit, Asha and Shikha
3) Ramcharan, Monica and Sudha
4) Rohit, Ramcharan, and Asha
5) None of these.

Directions (Q. 3 - 7): These questions consist of a question and two statements numbered I and II given below it. You have to decide whether the data given in the statements are sufficient to answer the question. Read both the statements and choose the most appropriate option.
3. In which month of the year did Rahul go abroad for a vacation?
I. Rahul correctly remembers that he went for a vacation in the first half of the year.
II. Rahul's son correctly remembers that he went for a vacation after $31^{\text {st }}$ march but before 1 st May.

1) The data either in statement I alone or in a statement II alone are sufficient to answer the question.
2) The data in both statements I and II together are necessary to answer thequestion.
3) The data in statement I alone are sufficient to answer the question, while the data in Statement II alone are not sufficient to answer the question.
4) The data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
5) The data even in both statements I and II together are not sufficient to answer the question.

## www.eenadupratibha.net

4. Among friends $\mathrm{M}, \mathrm{N}, \mathrm{O}, \mathrm{P}, \mathrm{Q}$ and R , who is the second heaviest?
I. O is heavier than only two friends. P is heavier than O but lighter than $\mathrm{N} . \mathrm{R}$ is the heaviest.
II. M is lighter than only two friends. N is heavier than O but lighter than R. P is heavier than only Q .
1) The data either in statement I alone or in statement II alone are sufficient to answer the question.
2) The data in both statements I and II together are necessary to answer the question.
3) The data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
4) The data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
5) The data even in both statements I and II together are not sufficient to answer the question.
5. How many marks did Suman score in the twenty-mark exam?
I. Suman scored two-digit marks and her marks was not in odd numbers.
II. Suman scored more than 14 but less than 18 marks.
1) The data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
2) The data either in statement I alone or in statement II alone are not sufficient to answer the question.
3) The data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
4) The data even in both statements I and II together are not sufficient to answer the question.
5) The data in both statements I and II together are necessary to answer the question.
6. Among six people $\mathrm{E}, \mathrm{F}, \mathrm{G}, \mathrm{H}, \mathrm{I}$ and J standing around a circle facing the centre, what is the position of $G$ with respect to $F$ ?
I. E stands second to the right of G. Only one person stands between E and I. F is an immediate neighbour of G.
II. Only two people sit between G and $\mathrm{H} . \mathrm{H}$ is an immediate neighbour of both I and E. F is not an immediate neighbour of I.
1) The data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
2) The data either in statement I alone or in statement II alone are sufficient to answer the question.
3) The data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
4) The data even in both statements I and II together are not sufficient to answer the question.
5) The data in both statements I and II together are necessary to answer the question.
7. Who among $\mathrm{P}, \mathrm{Q}, \mathrm{R}, \mathrm{S}$ and T is the tallest?
I. P is taller than $\mathrm{Q} . \mathrm{T}$ is not the tallest.
II. R is taller than P . S is not the tallest.
1) The data either in statement I alone or in statement II alone are sufficient to answer the question.
2) The data in both statements I and II together are necessary to answer the question.

## www.eenadupratibha.net

3) The data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
4) The data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
5) The data even in both statements I and II together are not sufficient to answer the question.

Directions: (Q.8-9): Read the given information carefully and answer the given questions.
Each of the six friends P, Q, R, S, T and U has a different weight. R is heavier than T but lighter than U . Q is lighter than only P . T is not the lightest. T weights 50 kg . The one who is the third heaviest weights 63 kg .
8. Whose weight could possibly be 49 kg ?

1) S
2) $Q$
3) $P$
4) $R$
5) U
9. Which of the following weights correctly represents possible weight of $R$ ?
1) 65 kg
2) 48 kg
3) 67 kg
4) 61 kg
5) 63 kg

## Directions (Q.10): Study the following information carefully and answer the given questions:

10. As more and more NRIs invest in property in City A, more than 100000 flats are lying vacant even as a large number of people struggle to get good accommodation in the city.
Which of the following statements represents the best possible course of action in order to deal with the situation?
1) A vacancy tax should be introduced in order to compel in owners to at least rent out the property.
2) Purchase of property should not be allowed unless it is used for self-residential purpose.
3) No NRI should be allowed to invest in property anywhere in India in order to protect the interests of the residents.
4) Residents of City A should be advised to reside in neighbouring cities where the population density is comparatively low.
5) Property prices should be decreased considerably by the government in order to allow everyone to buy as many properties as possible.
11. The total number of students in Class A and Class B is 120 . If 15 students from Class A are taken and added to Class B, the number in Class B becomes twice that of A. Find out the number of students in Class A in the beginning.
1) 55
2) 65
3) 40
4) 80
5) 66
12. How many such pairs of letters are three in the word SCHEDULE, each of which has as many letters between them in the word (in both forward and backward directions) as they have between them in the English alphabetical series?
1) Three
2) None
3) More than three
4) One
5) Two

## www.eenadupratibha.net

## Directions (Q.13): Read the following information carefully and answer the question that follows.

13. It has been recently reported that the country's low-cost domestic airline recently lost as many as 40 commanders or senior pilots mainly to Gulf airlines in the last one year. "Gulf airlines have hired many pilots in big numbers in recent months and most of the senior pilots have opted for these airlines as they have been unhappy with the domestic airline for quite some time," sources said.

Which of the following statements represents an appropriate course of action to be taken by the airline in order to curtail this problem?

1) The airline should increase the salary of all the employees and increment of the employees should be as per their grade.
2) The airline should examine the reason for the high rate of attrition among the senior employees and should focus on dealing with the concerns of the employees.
3) The airline should recruit only those pilots who are willing to sign a bond of 5 years.
4) The airline should improve their recruitment policies and should test the loyalty and integrity of the employees before they decide to hire them.
5) The airline should focus on recruiting younger pilots and providing them with good training rather than focusing on retaining senior pilots.
14. Which of the following will come in the place of the question mark (?) in the following series based on the english alphabetical order?

AN OQ ET GW ?

1) HZ
2) GY
3) IZ
4) HY
5) IX

Directions (Q. 15 - 19): In these questions, relationship between different elements is shown in the statements. The statements are followed by conclusions. Study the conclusions based on the given statement(s) and select the appropriate answer.
15. Statement: $P<L \leq A>M=K \geq E$
Conclusions: $\mathrm{I} . \mathrm{K} \leq \mathrm{L}$
II. $\mathrm{P}<\mathrm{E}$

1) Only conclusion II is true.
2) Both conclusions I and II are true.
3) Either conclusion I or II is true.
4) Neither conclusion I and II is true.
5) Only conclusion I is true.
16. Statements: $P>R=A<Y ; D<A$

Conclusions: I. P > D $\quad$ II. D $<$ Y

1) Both conclusions I and II are true.
2) Only conclusion I is true.
3) Neither conclusion Inor II is true.
4) Either conclusion I or II is true.
5) Only conclusion II is true.
17. Statements: $\mathrm{P}>\mathrm{R}=\mathrm{A}<\mathrm{Y} ; \mathrm{D}<\mathrm{A}$
Conclusions: I. P < Y
II. $\mathrm{R} \leq \mathrm{D}$
1) Both conclusions I and II are true.
2) Neither conclusion I nor II is true.
3) Only conclusion I is true.
4) Only conclusion II is true.
5) Either conclusion I or II is true.

## www.eenadupratibha.net

18. Statements: $\mathrm{C} \geq \mathrm{R}>\mathrm{A}=\mathrm{S} \leq \mathrm{H} ; \mathrm{R}<\mathrm{P}<\mathrm{Q}$
Conclusions: I.C > S
II. $\mathrm{P}<\mathrm{C}$
1) Either conclusion I or II is true.
2) Both conclusions I and II is true.
3) Only conclusion I is true.
4) Either conclusion I or II is true.
5) Only conclusion I nor II is true.
19. Statements: $\mathrm{C} \geq \mathrm{R}>\mathrm{A}=\mathrm{S} \leq \mathrm{H} ; \mathrm{R}<\mathrm{P}<\mathrm{Q}$
Conclusions: $\mathrm{I} . \mathrm{H} \geq \mathrm{R}$
II. $\mathrm{R}<\mathrm{Q}$
1) Both conclusions I adn II are true.
2) Only conclusion II is true.
3) Only conclusion I is true.
4) Either conclusion I or II is true.
5) Neither conclusion I nor II is true.

## Directions (Q. 20 - 24): Study the following information to answer the questions:

In certain code 'rural and urban divide' is written as 'na ku zu la', 'gap in rural infrastructure' is written as 'kt la vm pl', 'urban planning more important' is written as 'ti na cu bu' and 'more divide than gap' is written as 'pl cu dm zu' (All codes are two-letter codes only.)
20. What is the code and 'and' in the given code language?

1) ku
2) zu
3) dm
4) la
5) na
21. Which of the following may represent 'important theory planning' in the given code language?
1) la bu ti
2) ti bu kt
3) bu pl ti
4) bu xt ti
5) gm ti vm
22. Which of the following represents 'more rural' in the given code language?
1) $\mathrm{cu} \mathrm{pl}_{\mathrm{pl}}$
2) vm la
3) lacu
4) cuti
5) la ku
23. What does the code 'dm' stand for in the given code language?
1) Either 'gap' or more
2) than
3) divide
4) more
5) gap
24. What is the code for 'infrastructure' in the given code language?
1) zu
2) na
3) Either 'kt' or 'vm'
4) pi
5) la
25. How many meaningful English words can be formed with the letters 'NOEC' using all the letters, but each letter only once in each word?
1) Three
2) None
3) One
4) Two
5) More than three

## www.eenadupratibha.net

Directions (Q. 26 - 30): In each question there are three statements followed by two conclusions numbered I and II. You have to take the three given statements to be true even if they seem to be at variance with commonly known facts and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.
26. Statements: All railways are trains.

No train is a station.
Some stations are platforms.
Conclusions: I. All railways being platforms is a possibility.
II. No railway is a station.

1) Only conclusion I follows.
2) Only Conclusion II follow.
3) Both conclusions I and II follow.
4) Either conclusion I or II follows.
5. Neither conclusion I nor II follows.
6. Statements: All erasers are sharpners.

All sharpners are pencils.
Some pencils are pens.
Conclusions: I. No eraser is a pen.
II. All pencils are sharpners.

1) Only conclusion I follows.
2) Only conclusion II follows.
3) Either conclusion I or II follows.
4) Neither conclusion I nor II follows.
5) Both conclusions I and II follow.
28. Statements: All winters are summers.

Some summers are springs.
No spring is an autumn.
Conclusions: I. Atleast some winters are springs.
II. Some autumns being summers is a possibility.

1) Either conclusion I or II follows.
2) Both conclusions I and II follow.
3) Only conclusion I follows.
4) Neither conclusion I nor II follows.
5) Only conclusion II follows.
29. Statements: All erasers are sharpners.

All sharpners are pencils.
Some pencils are pens.

## www.eenadupratibha.net

Conclusions: I. Atleast some sharpners are pens.
II. No sharpener is a pen.

1) Either conclusion I or conclusion II follows.
2) Both conclusions I and II follow.
3) Only conclusion I follows
4) Neither conclusion I nor II follows.
5) Only conclusion II follows.
30. Statements: All winters are summers.

Some summers are springs.
No spring is an autumn.
Conclusions: I. All summers can never be autumns.
II. Atleast some summers are winters.

1) Either conclusion I or II follows.
2) Both conclusions I and II follow.
3) Only conclusion I follows.
4) Only conclusion II follows.

## Directions (Q. 31 - 35): Study the information and answer the given questions:

Seven people P, Q, R, S, T, U and V live on separate floors of a 7-floor building. Ground floor is numbered 1, first floor numbered 2 and so on until the topmost floor is numbered 7. Each one of these is travelling to a different city, viz Delhi, Mumbai, Patna, Chennai, Kolkata, Bengaluru and Lucknow but not necessarily in the same order. Only three people live above the floor on which P lives. Only one person lives between P and the one travelling to Bengaluru. U lives immediately below the one travelling to Mumbai. The one travelling to Mumbai lives on an even-numbered floor. Only three people live between the ones travelling to Bengaluru and Patna. T lives immediately above R. T is not travelling to Patna. Only two people live between Q and the one travelling in Kolkata. The one travelling to Kolkata lives below the floor on which Q lives. The one travelling to Delhi does not live immediately above or immediately below Q. S does not live immediately above or immediately below P. V does not travel to Chennai.
31. which of the following is true with respect to V as per the given information?

1) The one who lives immediately below $V$ is travelling to Mumbai.
2) V lives on Floor No. 7.
3) $V$ lives immediately below $T$.
4) V lives on the lowermost floor.
5) V is travelling to Bengaluru.
32. Who among the following lives on Floor No.3?
1) The one travelling to Chennai
2) The one travelling to Kolkata
3) $R$
4) T
33. Who lives on the floor immediately above T ?
1) $P$
2) $Q$
3) S
4) V
5) U

## www.eenadupratibha.net

34. To which of the following cities is $S$ travelling?
1) Mumbai
2) Bengaluru
3) Patna
4) Kolkata
5) chennai
35. How many people live between the floors on w hich $S$ and the one travelling to Mumbai live?
1) None
2) Two
3) One
4) More than three
5) Three

## Directions (Q. 36 - 40): Study the information and answer questions.

Nine friends A, B, C, D, E, F, G, H and I are sitting around a circular table (with equal distances between each other) facing the centre, but not necessarily in the same order.

D sits second to the right of F . Only two people sit between D and $\mathrm{C} . \mathrm{H}$ is an immediate neighbour of E. Neither H nor E is an immediate neighbour of C or D . Only two people sit between $A$ and E . G sits third to the right of $\mathrm{A} . \mathrm{B}$ sits second to the left of C . Only one person sits between C and E .
36. Who amongst the following sits exactly between A and I, when counted from the left side of A?

1) $F$
2) H
3) D
4) E
5) C
37. If $E$ and $B$ interchange their places and so do $A$ and $C$, then who will sit exactly between $A$ and $E$ ?
1) $F$
2) $G$
3) B
4) C
5) I
38. Four among the given five pairs are alike in a certain way based on the given arrangement, and thus form a group. Which amongst the following pairs does not belong to the group?
1) $B, A$
2) I, E
3) A, D
4) G, C
5) HF
39. Who sits second to the right of G?
1) I
2) $B$
3) C
4) $F$
5) A
40. Which of the following should come in place of question mark (?) according to the given seating arrangement?
A $\quad \mathrm{B} \quad \mathrm{C} \quad \mathrm{E} \quad \mathrm{F}$ ?
1) I
2) B
3) D
4) G
5) H

## TEST - II: QUANTITATIVE APTITUDE

41. A sold an article at 10 per cent loss on the cost price. He had bought it at a discount of 20 per cent on the labelled price. What would have been the percentage loss had he bought it at the labelled price?
1) 34
2) 18
3) Data inadequate
4) 28
5) 16

## www.eenadupratibha.net

## Directions (Q. 42 - 46): Refer to the line graph and answer the given question.

Data related to Income and Expenditure (in ₹ hundred) of a businessman during 7 years.

Note: 1) Profit = Income - Expenditure
2) Loss = Expenditure - Income
3) Per cent profit $=\left(\frac{\text { Profit }}{\text { Expenditure }}\right) \times 100$
4) Per cent loss $=\left(\frac{\text { Loss }}{\text { Expenditure }}\right) \times 100$
42. What is the average profit earned by the businessman in 2001, 2003, 2004, 2006 and 2007 together?

1) ₹ 27400
2) ₹ 28800
3) ₹ 29200
4) ₹ 26800
5) ₹ 28400
43. What is the percentage loss incurred by the businessman in 2002 and 2005 together?
1) $36 \frac{4}{11}$
2) $41 \frac{9}{11}$
3) $34 \frac{7}{11}$
4) $38 \frac{1}{11}$
5) $32 \frac{3}{11}$
44. The ratio of the expenditures of the businessman in 2003 and 2008 was $7: 13$. If he earned a profit of $19 \%$ in 2008, what was his income in that particular year?
1) ₹ 94060
2) ₹ 93720
3) ₹ 92820
4) ₹ 90560
5) ₹ 88760
45. What is the approximate percentage profit earned by the businessman in 2004 and 2007 together?
1) 73
2) 79
3) 77
4) 69
5) 64
46. What is the ratio of the profit earned by the businessman in 2003 and 2006 together to the loss incurred by him in 2002 and 2005 together?
1) $9: 8$
2) $11: 8$
3) $17: 14$
4) $7: 6$
5) $13: 12$
47. In a class, the average age of both male and female students together is 18 years. The total age of the 15 female students is 240 . How many male students aredefinitely there in the class?
1) 20
2) 40
3) 30
4) Data inadequate
5) 25

## www.eenadupratibha.net

Directions (Q. 48 - 52 ): In the given question two equations are given. You have to solve both the equations and give answer.
48. I. $x^{2}+3 x-28=0$

1) $x=y$ or relationship cannot be established
2) $x<y$
3) $x \leq y$
49. $\quad$ I. $4 x+3 y=(1600)^{\frac{1}{2}}$
II. $6 x-5 y=(484)^{\frac{1}{2}}$
1) $x<y$
2) $x \geq y$
3) $x \leq y$
4) $x>y$
5) $x=y$ or relationship cannot be established
50. I. $2 x^{2}+18 x+40=0$
II. $2 y^{2}+15 y+27=0$
1) $x<y$
2) $x \geq y$
3) $x \leq y$
4) $x>y$
5) $x=y$ or relationship cannot be established
51. I. $6 x^{2}-29 x+35=0$
II. $3 y^{2}-11 y+10=0$
1) $x \geq y$
2) $x=y$ or relationship cannot be established.
3) $x \leq y$
4) $x>y$
5) $x<y$
52. I. $\left(6 x^{2}+17\right)-\left(3 x^{2}+20\right)=0$
II. $\left(5 y^{2}-12\right)-\left(9 y^{2}-16\right)=0$
1) $x<y$
2) $x \geq y$
3) $x \leq y$
4) $x>y$
5) $x=y$ or relationship cannot be established

Directions (Q. $53-57$ ): What will come in place of question mark (?) in the given number series?
53. $2 \begin{array}{lllllll} & 4 & 10 & ? & 82 & 244\end{array}$

1) 30
2) 48
3) 28
4) 46
5) 34
54. $33 \quad 16.5 \quad ? \quad 24.75 \quad 49.5 \quad 123.75$
1) 16.5
2) 13.5
3) 22.5
4) 20.5
5) 12.5
55. $20 \quad 23$ 30 43 64 ?
1) 85
2) 92
3) 95
4) 99
5) 88
56. $44 \quad$ ? $99 \quad 148.5 \quad 222.75 \quad 334.125$
1) 72
2) 77

4) 54
5) 84
57. $\begin{array}{llllllll}7 & 8 & 4 & 13 & -3 & 22 & ?\end{array}$
1) -7
2) -10
3) -12
4) -14
5) -9

## www.eenadupratibha.net

## Directions (Q. 58 - 62): Study the table and answer the given questions:

## Data related to the number of employees in six companies during 6 years

Note: $\mathrm{M}=$ Male, $\mathrm{F}=$ Female

| Company | $\mathbf{I}$ |  | J |  | K |  | L |  | T |  | $\mathbf{N}$ |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Gender $\rightarrow$ <br> Year $\downarrow$ | $\mathbf{M}$ | $\mathbf{F}$ | $\mathbf{M}$ | $\mathbf{F}$ | $\mathbf{M}$ | $\mathbf{F}$ | $\mathbf{M}$ | $\mathbf{F}$ | $\mathbf{M}$ | $\mathbf{F}$ | $\mathbf{M}$ | $\mathbf{F}$ |
| 2004 | 142 | 136 | 144 | 111 | 138 | 97 | 162 | 145 | 148 | 121 | 145 | 118 |
| 2005 | 165 | 171 | 161 | 136 | 194 | 134 | 219 | 183 | 180 | 178 | 212 | 177 |
| 2006 | 139 | 145 | 164 | 157 | 152 | 129 | 178 | 191 | 212 | 162 | 241 | 184 |
| 2007 | 217 | 198 | 179 | 211 | 254 | 168 | 277 | 234 | 263 | 198 | 333 | 259 |
| 2008 | 265 | 232 | 348 | 356 | 238 | 278 | 298 | 313 | 310 | 216 | 321 | 316 |
| 2009 | 372 | 242 | 321 | 238 | 281 | 267 | 245 | 214 | 396 | 230 | 339 | 303 |

58. What is the difference between the average number of male employees in all the given companies in 2006 and the average number of female employees in all the given companies in 2009?
1) 68
2) 64
3) 58
4) 52
5) 74
59. The total number of female employees in Company L in 2004, 2005, 2006 and 2007 together is what per cent more than the total number of female employees in Company T in the same years together? (Rounded off to the nearest integer)
1) 20
2) 14
3) 18
4) 12
5) 16
60. In which of the given years is the percentage increase in the number of male employees of Company T from previous year the highest?
1) 2009
2) 2007
3) 2008
4) 2005
5) 2006
61. The total number of female employees in Company J during all the given years together is what per cent of the total number of male employees in Company I during all the given years together?
1) 87
2) 93
3) 89
4) 91
5) 95
62. What is the ratio of the total number of employees (male and female) in companies $\mathrm{J}, \mathrm{K}$ and N together in 2005 to the total number of employees (male and female) in the same companies together in 2007 ?
1) $11: 16$
2) $13: 16$
3) $9: 14$
4) $11: 18$
5) $13: 18$

1) 100
2) 50
3) Data inadequate
4) 200
5) 75
73. The ratio of the base to the height of a right-angled triangle is $4: 5$. If the area of the right-angled triangle is $80 \mathrm{sq} . \mathrm{cm}$, what is the height of the triangle?
1) $16 \sqrt{2} \mathrm{~cm}$
2) 10 cm
3) 8 cm
4) 20 cm
5) $10 \sqrt{2} \mathrm{~cm}$

## Directions (Q. 74 - 78): Read the information given in the passage and answer the given questions:

There are 19000 students in College P. Each of them is studying either one or more of the given language - Japanese, Korean and Latin. The ratio of male to female students is $9: 11$.
$14 \%$ of the male students study only Japanese, $12 \%$ study only Korean and $20 \%$ study only Latin. $16 \%$ of the male students study only Japanese and Korean, $22 \%$ study only Korean and Latin and $8 \%$ study only Japanese and latin. The remaining male students study all the given languages.
$22 \%$ of the female students study only Japanese, $18 \%$ study only Korean and $20 \%$ study only Latin. $12 \%$ of the female students study only Japanese and Korean, $16 \%$ study only Korean and latin and $10 \%$ study only Japanese and latin. The remaining female students study all the given languages.
74. The number of male students who study more than one of the given languages is what per cent moe than the number of female students who study more than one of the given languages?

1) $12 \frac{2}{13}$
2) $10 \frac{5}{11}$
3) $10 \frac{1}{11}$
4) $18 \frac{1}{13}$
5) $13 \frac{1}{11}$
75. How many male students study japanese language?
1) 3389
2) 3572
3) 3933
4) 3782
5) 3258
76. What is the ratio of the number of male students who study Korean to the number of female students who study the same language?
1) $58: 59$
2) $57: 58$
3) $87: 88$
4) $63: 64$
5) $61: 62$
77. What is the difference between the number of female students who study latin and the number of male students who study the same language?
1) 43
2) 76
3) 83
4) 62
5) 57
78. The number of male students who do not study Korean is what per cent of the number of female students in College P?
1) $34 \frac{4}{11}$
2) $37 \frac{1}{11}$
3) $38 \frac{2}{11}$
4) $33 \frac{3}{11}$
5) $32 \frac{4}{11}$

1) Placed, stop
2) Paid, halt
3) Given, hold
4) Laid, address
5) Put, clear

## www.eenadupratibha.net

Directions (Q. 141 - 150): Read the following passage carefully and answer the given questions. Certain words are given in bold to help you locate them while answering same of the questions.

Rural development in India has witnessed several changes over the years in its emphasis, approaches, strategies and programmes. It has assumed a new dimension and perspective as a consequence. Rural development can be richer and more meaningful only through the participation of clienteles of development. Just as implementation is the touchstone for planning, people's participation is the centrepiece in rural development. People's participation is one of the foremost prerequisites of development process both from procedural and philosophical perspectives. For the development planners and administrators, it is important to solicit the participation of different groups of rural people, to make the plans participatory.

Rural development aims at improving rural people's livelihood in an equitable and sustainable manner, both socially and environmentally, through better access to assets and services, and control per productive capital.

The basic objectives of Rural Development Programmes have been alleviation of poverty and unemployment through creation of basic social and economic infrastructure, provision of training to rural unemployed youth and providing employment to marginal farmers/ labourers to discourage seasonal and permanent migration to urban areas.

Rural development is the main pillar of nation's development. Inspire of rapid urbanisation, a large section of our population still lives in the villages. Secondly, rural India has lagged behind in development because of many historical factors. Though the $11^{\text {th }}$ Plan began in very favourable circumstances with the economy having grown at the rate of $7.7 \%$ per year in the $10^{\text {th }}$ Plan period, there still existed a big challenge to correct the developmental imbalances and to accord due priority to development in rural areas. Ministry of Rural Development is implementing a number of programmes aimed at sustainable holistic development in rural areas. The thrust of these programmes is on all-round economic and social transformation in rural areas through a multi-pronged strategy aiming to reach out to the most disadvantaged sections of the society.

Although concerted efforts have been initiated by the Government of India through several plans and measures to alleviate poverty in rural India, there still remains much more to be done to bring prosperity in the lives of the people in rural areas. At present, technology dissemination is uneven and slow in the rural areas. Good efforts of organisations developing technologies, devices and products for rural areas could not yield high success. Experiences of many countries suggest that technological development fuelled by demand has a higher dissemination rate. However, in India, technology developers for rural areas have been catering to needs, rather than creating demand. There is no industry-linkage machinery to create demand-based technology market for rural communities. Besides, there is also an imbalance between strategies and effective management programmes. Propagation of technology/ schemes for rural development is slow and there is a lacking in wider participation of difference stakeholders. An ideal approach may, therefore, include the government, panchayats, village personnel, researchers, industries, NGOs and private companies to not only help in reducing this imbalance, but also to have a multiplier effect on the overall economy.
141. According to the passage, which of the following are the objectives of most Rural Development Programmes?
(A) To promote urbanisation
(B) Provide training to youth
(C) Reducing unemployment

1) Only A and C
2) Only $C$
3) Only B and C
4) All the three (A), (B) and (C)
5) Only A

## www.eenadupratibha.net

142. Which of the following is most nearly the SAME in meaning as the word given in bold as used in the passage?

## Alleviation

1) Mitigation
2) Soothing
3) Intensification
4) Outpouring
5) Comfortable
143. Which of the following is most OPPOSITE in meaning of the word given bold as used in the passage?

Propagation

1) Generation
2) Producing
3) Reproduction
4) Under development
5) Growth
144. What, according to the passage, is the most important factor of rural development?
1) Alleviation of poverty and unemployment
2) Employment to marginal farmers and labourers
3) Participation of different groups of rural people
4) Creation of basic social and economic infrastructure
5) None of these
145. Which of the following is true according to the passage?
(A) Urbanisation has resulted in majority of Indian population living in urban areas
(B) The economic growth of the $10^{\text {th }}$ Five Year Plan did not translate into proportionate rural development.
(C) The efforts of the Government of India for poverty alleviation have met with complete failure
1) Only A and B
2) Only $C$
3) Only A and C
4) Only B
5) All the three (A), (B) and (C)
146. Which of the following is most nearly the SAME is meaning as word given in bold as used in the passage?

## Touchstone

1) Yardstick
2) Periphery
3) Sensitivity
4) Weakness
5) Hurdle
147. According to the passage, what ails the process of technology-aided development in rural areas?
(A) Creation of demand for technology-aided development in rural areas is missing.
(B) There is lack of participation of rural people in the process of technology-aided development.
(C) There is a dearth of appropriate linkages needed for bringing about technology-aided development.
1) Only C
2) Only B and C
3) Only A
4) Only A and B
5) All the Three (A), (B) and (C)

148. Which of the following can be he most suitable title for the passage?
1) Technology in Rural India.
2) The Rural Indian Communities.
3) Rural Development - The Participative Way
4) Rural India - Ignored by All the Stakeholders.
5) Rural Development - An Impossible Dream.
149. What is the current status of the poverty alleviation programme initiated by the Government of India?
(A) Technology dissemination is uneven and slow in rural areas.
(B) There still remains much more to be done to bring prosperity in the lives of the people in rural areas.
(C) There is a lack of participation of different stakeholders.
1) Only (A) and (B)
2) Only (B) and (C)
3) Only (A) and (C)
4) All (A), (B) and (C)
5) None of these.
150. Which of the following is most OPPOSITE in meaning of the word given in bold as used in the passage?

Equitable

1) Troubled
2) Unfair
3) Separated
4) Futuristic
5) Just

Directions (Q. 151 - 160): In the given passage there are blanks each of which has been numbered. Against each, five words are suggested, one of which fits the blank appropriately. Find the appropriate word in each case.

Confidence in the global economy is (151) improving, as evidenced by the bullish behaviour of financial markets and by increasingly positive comments from companies and policy makers over the past few weeks.

While economists have generally argued in (152) of a robust recovery, both in the world economy and in financial markets, it is when investors get (153) bullish that the pessimistic case deserves more (154). Many of them believe that the current improvement in global conditions is just a blip and that the world faces years, if not decades, of "secular stagnation." How (155) should we take these foreboding statements?

The good news is that there is not much (156) of secular stagnation in global statistics. For the world economy as a whole, "new normal" since 2008 has not, in fact, been very (157) from the pre-crisis period. The average growth of the global economy, from 1988 to 2007 , was 3.6 per cent according to the IMF's Economic Outlook database. its latest forecast for this year is the same - 3.6 per cent - although the IMF Managing Director hinted at a modest (158) this week.

At first sight, this continuity from the pre-crisis decades seems (159) to square with the slowdown in economic activity in all major economies since 2008. The IMF expects only 2.2 per cent growth this year in developed countries compared with an average of 2.8 per cent during the two decades before the crisis. In the emerging economies, meanwhile, growth is $\mathbf{( 1 6 0 )}$ at 4.8 per cent this year, slightly below the 4.9 per cent of the pre-crisis decades.
151.

1) Heavily
2) Steadily
3) Tremendously
4) Highly
5) Regularly

166. Mail from unwanted senders can be blocked by
1) Not buying anything online so that junk mail senders will not having anything to benefit by
2) Sending them nasty replies when they send any mail.
3) Using mail filters.
4) Clicking the Unsubscribe link
5) E-mailing them and asking to be removed from the list.
167. POP denotes
1) Post Office Program
2) Post Office Protocol
3) Popular Office Program
4) Protocol on Protocol
5) Program of Programmer
168. How many gigabytes are there in a petabyte?
1) 1000
2) .001
3) 100
4) 1000000
5) 5000000
169. For a browser to connect to other resources, the location or address of the resources must be specified. These addresses are called
1) MSN
2) e-mail forms
3) packets
4) Ids
5) URLs
170. The extensions.gov, .mil, and .net are called
1) Mail to addresses
2) Add-ons
3) Domain codes
4) DNSs
5) E-mail targets
171. Software that is actively utilised by end-users (like Word or Photoshop) is called.
1) Actionware
2) Operating system
3) System software
4) Driver
5) Application software
172. Using a $\qquad$ helps to place an image into alive. video conference.
1) Printer
2) Digital camera
3) Video camera
4) Webcam
5) Scanner
173. Programmes designed to perform specific tasks related to managing computer resources are called.
1) Operating system
2) Helper software
3) System software
4) Application software
5) Utility program
174. A rectangular area on a computer screen that can contain a document, program, or messages is referred to as $\mathrm{a}(\mathrm{n})$
1) Field
2) Opening
3) Window
4) Tublet
5) Cell

175. The storage locations in the internal storage of a CPU is called
1) Reference points
2) Addresses
3) Contents
4) Mask
5) Locations
176. Of the following types of computers, which is the most powerful?
1) Laptop
2) Mainframe computer
3) Minicomputer
4) Super computer
5) Microcomputer
177. An input device which can read characters directly from an ordinary piece of paper is
1) OMR
2) POS
3) OCR
4) MSI
5) $C D$
178. The radian of a number system
1) Has nothing to do with digit position value
2) Equals the number of its distinct counting digits

3 ) Is more than the number of its distinct counting digits.
4) Is always an even number
5) Is variable
179. Which of the following statements is false?

1) Passwords are case-sen-sensitive.
2) Passwords are not echoed on the screen for security reason.
3) A good password should be not more than six characters long.
4) Password is a secret code that authenticated a person to the computer.
5) Passwords should be changed frequently.
180. The most common method for gaining access to the internet is through a
1) Dumb terminal
2) Keyboard
3) Provider or host computer
4) Virtual provider or computer
5) Point-to-point computer.
181. Which of the following is format for storing and backing up computer data on tape that evolved from Digital Audio Tape (DAT) technology?
1) Audio Interchange File Format
2) Digital Data Storage
3) Virtual Tape System
4) Tape Archive
5) Data Aggregation
182. A compiler means
1) Key punch operator
2) Computer data collector
3) A person who compiles source programs
4) A program which translates source program into object program.
5) The same thing as a programmer.

183. Specialised programs designed to allow particular input or output devices to communicate with the rest of the computer system are called.
1) Compilers
2) Action drivers
3) Interpreters
4) Device drivers
5) Operating systems
184. get transmitted across the web by harmful chain letters and hoaxes.
1) Flames and Infections
2) Flames
3) Warnings
4) Viruses
5) Infections
185. ATM machines run $\qquad$ OS.
1) Network
2) Web
3) Embedded
4) Disintegrated
5) Open source
186. Moving from one Web site to another is called
1) Jumping
2) Applying
3) Surfing
4) Moving
5) Shifting
187. In a client/server network, the user's computer is considered the
1) Client
2) Web site
3) Library
4) Server
5) Hoster
188. A program that is used to view web sites is called a
1) Word processor
2) Spreadsheet
3) Browser
4) Web viewer
5) Viewer
189. The physical component of a computer that processes data in order to create information is called the
1) Specialware
2) Typology
3) Software
4) Hardware
5) Compiler
190. An emerging trend is to free users from owning and storing applications by using
1) Word processing packages
2) Backup applications
3) Applications packages
4) Storage packages
5) Web-based applications
191. Which is a secondary memory device?
1) Mouse
2) Floppy disk
3) Scanner
4) CPU
5) ALU
192. Which of the following is possible with open architecture?
1) A minimum of six new devices to be added to a computer.
2) Hot swapping of devices
3) Users to upgrade and add new devices as they come on the market.
4) All hardware, input, and output devices to be located in one efficient box.
5) A minimum of four new devices to be added to a computer.

4) Graphics
5) Animations
194. Step-by-step instructions that run the computer are
1) CPUs
2) Programmes
3) Solutions
4) Hardware
5) Documents
195. The process of writing computer instructions in a programming language is known as
1) Processing
2) Algorithming
3) Coding
4) File
5) Instructioning
196. Which of the following refers to too much electricity and may cause a voltage surge?
1) Shock
2) Anomaly
3) Splash
4) Spike
5) Virus
197. Rules for exchanging data between computers are called
1) Procedures
2) Protocols
3) Hyperlink
4) Programs
5) Hyper-actions
198. Which of the following is used to write Web pages?
1) URL
2) HTML
3) HTTP
4) FTP
5) Telnet
199. is the most important/powerful computer in a typical network.
1) Network client
2) Desktop
3) Network switch
4) Network station
5) Network server
200. Raw, unprocessed facts, including text, numbers, images, and sounds, are called
1) Applets
2) Data
3) Metaware
4) Items
5) Java
