VI. Read the following passage carefully and answer the questions that follow : $5 \times 1 = 5$

According to experts at Newcastle University in Britain, cows treated in a humane way produce an extra 258 litres of milk a year. Dr. Catherine Douglas and Dr. Peter Rowlinson did research in reducing stress levels in dairy cattle. They asked more than 500 farmers if they had names for their cows. The ones that did had a substantially higher milk production. According to the researchers, cows that were treated more personally were happier and more relaxed. This treatment reduces the level of stress and production of cortisol, both of which can impair milk production.

(1) To which University did Douglas and Rowlinson belong ?
(2) Which cows produced more milk ?
(3) Name one factor which impairs milk production.
(4) Pick out the word in the passage which means 'kind'.
(5) State True or False :
Cortisol reduces milk production in cows.

VII. Read the following passage carefully and answer the questions that follow : **5 × 1 = 5**

All through that summer the work of the farm went like clockwork. The animals were happy. Every mouthful of food was a pleasure, it was truly their own food, produced by themselves and for themselves, not doled out to them by a grudging master. With the worthless human beings gone, there was more for everyone to eat. They met with many difficulties too while farming – but the clever pigs and strong Boxer always pulled them through. Boxer was the admiration of everybody. There were days when the entire work of the farm seemed to rest on his mighty shoulders. From morning to night he was pushing and pulling, always at the spot where the work was hardest. His answer to every problem was "I will work harder." That was his personal motto.

(1) Why were the animals happy ?
(2) Who helped them overcome the problems in farming ?
(3) Is the name "Boxer" appropriate for the horse ? Justify your answer.
(4) Why did all the animals admire him ? (choose the best option)
  (a) Because he was handsome.
  (b) Because he was hardworking.
  (c) Because he narrated interesting stories.
(5) What was Boxer's motto in life ?

XIV. Construct a dialogue between two students who met on the first day at college. $1 \times 5 = 5$

OR

Tomorrow is your birthday. Invite your teacher to your birthday party. Write a dialogue between you and your teacher.

XV. Read the following passage and make notes. $1 \times 5 = 5$

Men cannot manufacture blood as efficiently as women can. Men need more oxygen because they do not breathe as often as women do. But men breathe more deeply and this exposes them to the risk of drawing in more polluted air. Men's bones are larger than women's. Men have broader shoulders, a narrow pelvis. A woman has a wider pelvis that results in a bit of a sway as she walks. Man has a thicker skin than that of a woman. Women have a thin layer of fat just under the skin. This helps women keep warm in winter and cool in summer. Men's fat is distributed differently and they don't have a layer just under their skin.
